Class Formats for Spring 2021:

Real-time remote- 100% of course activity is done online; there are no required face-to-face sessions within the course and no requirements for on-campus activity.

Hyflex- This course has an on-campus, face-to-face component. Students will attend class in person on a rotational basis on some days and participate remotely in class sessions on other days.

ONLINE- There is no meeting time for this course, it will be completed through Blackboard. You are assigned work that you can complete on your own time on a schedule that works for you. Don't be afraid to reach out to your professor with any questions!

Lecture- This traditional method is being used for classes like labs and activities where you have to be in the classroom for the assigned day(s).
