

Registration and Records Professional Licensure Program Attestation

Federal regulations require colleges to determine whether their academic programs meet the educational requirements for professional licensure or certification in the state where the college is located, as well as in the states where out-of-state students live when they enroll. In the event that a student lives in a state where the program does not meet the requirements, this form confirms that the student plans to become licensed in a state where the program does meet the requirements and allows the student to continue with registration at OCC.
